## THE AVIARA GREEN TEAM

We are proud to officially introduce the Aviara Green Team! This team is dedicated to finding ways our Residence Club can reduce our environmental impact, design operations driven by sustainability, and foster connections through sustainable initiatives in the community.

This year, the Residence Club has already managed to implement several strategies to lower our environmental impact by replacing incandescent lights with LED, managing our irrigation systems with smart watering systems, working towards eliminating single-use plastics in our operations, and partnering with sustainable companies like Comfort Zone skincare in the Driftwood Spa.

This is just the beginning of many other initiatives to come. Stay tuned!
